Service Level Agreement (SLA) Schedule

1. Availability Commitment

Monthly uptime: [99.9% pooled / 99.95% dedicated — SELECT PER TIER], measured at the platform API boundary, excluding scheduled maintenance windows notified [NOTICE, e.g. 5 business days] in advance.

2. Response & Resolution Targets

P1 (platform down / payroll-impacting): response [15 min], workaround [4 h]. P2 (major function degraded): response [1 h], workaround [1 business day]. P3 (minor defect): response [1 business day]. P4 (question/ request): [2 business days]. [ADJUST PER TIER].

3. AI Service Levels

Assistant first-response latency: [TARGET, e.g. p95 < 5 s] for deterministic flows. Case resolution SLA by flow class: Flow 1 [TARGET], Flow 2 [TARGET], Flow 3 [TARGET incl. human steps], Flow 4 [TARGET]. Human-escalation handoff time: [TARGET].

4. Service Credits

Uptime below commitment: [CREDIT TABLE — e.g. 99.0–99.9% !’ 5% monthly fee; 95–99% !’ 15%; <95% !’ 30%]. Credits are calculated automatically from platform metering data and applied to the next invoice. Credits are the sole remedy except for [CHRONIC FAILURE TERMINATION RIGHT].

5. Measurement & Reporting

Monthly service report delivered to [CLIENT CONTACT] by [DAY] of the following month, from the same telemetry visible in the client dashboard. Disputes raised within [WINDOW].

6. Exclusions

Failures caused by Client systems or connectors outside Provider control, force majeure, suspension for AUP breach, or use outside the Documentation.
