AI Output Disclaimer

1. Nature of Outputs

Responses generated by the Autonomous HRO Agentic Platform are AI-generated assistance grounded in [CLIENT NAME]'s HR policy library and connected systems of record. They are provided for operational convenience.

2. Not Professional Advice

Outputs do not constitute legal, tax, immigration, financial, or medical advice. For matters with legal or financial consequences — e.g. cross-border relocation, terminations, equity, benefits elections — consult the designated human specialists: [CONTACTS/CHANNEL].

3. Accuracy & Citations

Policy answers include citations to source documents. Where the assistant cannot ground an answer, it will say so and route to a human rather than guess. If you believe an answer is wrong, report it via [FEEDBACK MECHANISM]; reported answers are reviewed within [SLA].

4. Authoritative Sources

In case of conflict, the signed policy documents, employment contracts, and payroll system of record prevail over assistant responses. [LIST AUTHORITATIVE SYSTEMS].

5. Version

Version [X.Y] — Last updated [DATE]. Displayed in-product at [LOCATION].

This template is provided for drafting convenience only and does not constitute legal advice. Obtain review from qualified counsel in each applicable jurisdiction before use.
